

PERSONAL PROFILE

Creative and detail-oriented Software Developer with a strong foundation in full-stack web technologies and a solid background in mathematics education. Graduated from Centennial College's Software Engineering Technology program with an outstanding GPA. Adept at combining analytical thinking and user-focused design to develop scalable, efficient, and visually appealing web applications. Currently contributing to an e-commerce transformation at Loohoo Gift Shop, leveraging both technical and problem-solving skills. Proven ability to work in hybrid settings, consult with clients, and deliver robust, optimized solutions.

Professional Experience

Software Developer

Loohoo Gift Shop, 1380 Queen St W, Toronto ON M6K 1L7

Jan 2025- Mar 2025

- Spearheaded the development and ongoing enhancement of the company's Shopify-based e-commerce platform, improving site performance, design, and user navigation.
- Collaborated with stakeholders to understand and document website requirements and translate them into functional and visual web features.
- Designed and integrated front-end components using HTML, CSS, and JavaScript while managing backend logic through Shopify Liquid and custom app integrations.
- Migrated legacy data into Shopify, ensuring smooth transitions and improved backend efficiency.
- Created mockups, layout wireframes, and optimized web content using Adobe Photoshop and Illustrator.
- Applied advanced mathematical and analytical skills to optimize database queries and ensure data integrity across integrated systems.
- Identified bottlenecks and implemented solutions, enhancing the website's responsiveness and user experience.

Software Developer (Coursework)

Centennial College, Scarborough, Ontario, Canada

Sept 2022 – Sept 2024

- Developed and tested secure web applications using Node.js, Express, and MongoDB.
- Engineered scalable backend APIs and implemented authentication using JWT.
- Designed and prototyped user interfaces, optimizing accessibility and performance.
